DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 rejected under 35 U.S.C. 102(b) as being anticipated by Beitner (US Patent No. 5,355,678). Beitner discloses an apparatus consisting of a bracket clamping assembly and comprising: a thermoelectric module (12), thermal conducting members (14), a first and second leaf spring (38), a bow shaped clamping bracket (50), extending bracket legs (58, 66) and inherently capable wrapping around a vapor chamber, a thermoelectric cooler and a heat sink for securing since the claimed feature are deemed functional language and not positively claimed

Allowable Subject Matter

Claims 1-12 & 17-24 are allowed over the prior art of record.

Claims 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
